EXPERIENCE

School of Computer Science "Martires de Giron"
IT Engineer (sept-2009 | jul-2012)

I laid my initial technological foundations at the "Mártires de Girón" School of Informatics, where I perfected my network management skills and became the person to turn to in case of hardware.

Research Center "Molecular Engineering"
Digital Marketing (sept-2012 | abr-2018)

I crafted compelling web strategies, lent my creative touch to branding efforts and help redrebrand the web for a more modern marketing strategy. It was a dynamic period where technology met creativity, laying the ground work for my evolutionary journey

"DESOFT" Software Agency
Jr.Font-EndDeveloper(May-2018|Sept-2020)

I immersed myself in the intricacies of Javascript Front-End technologies like React and Next.js and others. It was a time of learning, growing and embracing the fast-paced world of software development.

Freelance
Web Developer (Sep-2021 | Present)

With my unique blend of skills, an intense passion for clean code and an unwavering commitment to performance,I embark on every project with the goal of creating digital experiences that leave alasting impression.

3dids - Digital Business Consultant
Liquid Developer (Jan-2024 | Present)

As well as working freelance, I usually collaborate with various independent agencies to gain experience and learn new tech stacks. For instance, I joined the Liquid Developer Group at 3dids, where I help enhance their project development.

> "The magic began when I first saw Adobe Dream weaver, it was then that the web stole my heart."

EDUCATION

Martiresde Giron "School of Computer Science"
Graduated in 2009

freecodecamp.org Diplomas
- Responsive Web Design
- JavaScript Algorithms and Data Structure
- FrontEnd Development Libraries
- Data Visualization
- BackEnd Development and APIs

- Apollo Graph Developer - Associates
- Fundamentals of digital marketing - Google
- Google Analytics Certification - Google

SKILLS

The experience I have gained from the various roles I have held through out my career has provided me with a very full range of interpersonal skills. As a Front-End Developer, I have worked as a designer and engineer and have the ability to empathise with both disciplines:

-I bring innovative ideas and creative solutions to projects.
-I express myself clearly and effectively, both verbally and in writing, and I listen actively.
-I remain calm and efficient in high-pressures ituations.
-I have strong design skills to integrate functionality and aesthetics.
-I facilitate communication between developers and designers to ensure consistency.

TECH STACK

HTMLandCSS / JavaScript / Typescript / Reac / Next.js / GraphQL / Node / Express.js / Mongo&Mongoose / SQL / Astro / ThreeJS / Tailwind / Git&GitHub / Liquid / UXDesign / Strategy/ UserResearch / AgileMethodologies
